SWEDISH MAUSER M38

Short Rifle

Cal. 6.5 x 55mm

By the 1930s, it had been proven that the long Infantry rifle unnecessary and often a hindrance to the troops to which they were issued. Sweden began to shorten the barrels of some M96 rifles

Retaining the accuracy of the M96, the M38 has proven a popular choice for hunting medium game. Barrel: 61cm (24"), Overall: 112cm (44.1"). Weighs: 4.1 kgs. (9.1 lbs.).

Rifle Cal. 7.62 x 54R

The "creme de la creme" of Shotgun Slugs. High performance arrow type hunting bullet.

An unprecedented innovation in ballistics. Uses a sub-calibre projectile riding in a 2-piece plastic sabot (fin-stabilized). Unique arrow design increases accuracy and penetration. Brand new manufacture. Packed in 6-rds. per carton

Compared to any standard bullet, the SilverPlus bullet has these high performance benefits: 4 times more precise, 3 times deeper penetration, an increase of 50% in velocity, low sensitivity to slopes and adverse weather conditions, a low tendency to side ricochet (much safer).
